GRADUATE FOLLOW-UP SURVEY

2004-2005 Report

MVCC 2004-2005 Graduate Follow-up Survey

This report summarizes the results of Mohawk Valley Community College's Graduate Survey.

There were 836 graduates (Aug '04, Dec '04 and May '05 grads), who received a total of 861 degrees.

This report was prepared in the Winter of 2006 by the Office of Institutional Assessment: Mark E. Radlowski, Director of Institutional Assessment

Notes:

1) The survey was sent out by mail in June and again in July 2006. Telephone calls were made during September through November to try to encourage more graduates to respond. The survey did not reach 34 of the graduates since their addresses were incomplete or incorrect.

2) The term "Respondent" does not necessarily indicate someone who actually filled out a questionnaire. The information actually comes from two sources:
   a) There were 279 survey returns, including the information received via telephone calls (33.37% return rate).
   b) SUNY-generated files to track transfer students. Data in question 11 includes 184 additional students who were tracked in this fashion.

3) The list of employers in Part 2 only includes those of students in "related" occupations, although the salary is the median of all those who volunteered their income.

   An asterisk (*) in the salary information indicates that fewer than three graduates reported their annual salary.

4) Percentages are based solely on non-blank values.
