MVCC 2007 Graduate Follow-up Survey

This report summarizes the results of Mohawk Valley Community College's Graduate Survey.

There were 855 graduates (Aug '05, Dec '05 and May '06), who received a total of 888 degrees.

This report was prepared in the Spring of 2008 by the Office of Institutional Assessment.

Notes:

1) The survey was sent out by mail in May and again in June 2007. Telephone calls were made in August 2007 to try to encourage more graduates to respond. The survey did not reach 24 of the graduates (22 due to incorrect addresses, 1 deceased, 1 awarded after the survey was sent out).

2) The term "Respondent" does not necessarily indicate someone who actually filled out a questionnaire. The information actually comes from two sources:

   a) There were 257 survey returns, including the information received via telephone calls (30.06% return rate).

   b) SUNY-generated files to track transfer students. Data in question 11 includes 181 additional students who were tracked in this fashion.

3) The list of employers in Part 2 only includes those of students in "related" occupations, although the salary is the median of all those who volunteered their income.

   An asterisk (*) in the salary information indicates that fewer than three graduates reported their annual salary.

4) Percentages are based solely on non-blank values.
