APPLIED LEARNING FUNDING PROPOSAL

Applied learning is defined as an educational approach whereby students learn by engaging in direct application of skills, theories and models. Students apply knowledge and skills gained from traditional classroom learning to hands-on and/or real-world settings, creative projects or independent or directed research, and in turn apply what is gained from the applied experience to academic learning. The applied learning activity can occur outside of the traditional classroom experience and/or be embedded as part of a course. https://www.suny.edu/applied-learning/

Name of Faculty or Staff Requesting Funds:

_____

Email & Telephone Number:

_____

Amount Requested – Please break down if needed:

_____

Description of Proposal – please be as detailed as possible and attach an additional sheet if needed. The proposal must include the following:

- **How are students prepared appropriately to participate in the experience?**
- **How does this experience provide a real world context?**
- **How does this experience provide for the practice of professional skills?**
- **Which student learning outcomes are met and how?**

_____

Please identify assignments that will encourage students to meaningfully reflect on their experience, how they will test assumptions and construct new knowledge:

_____

Please identify how this experience will be evaluated by both the students and the person requesting the funds. A copy of these evaluations must be sent to Student Engagement & Outreach for our own assessment.
