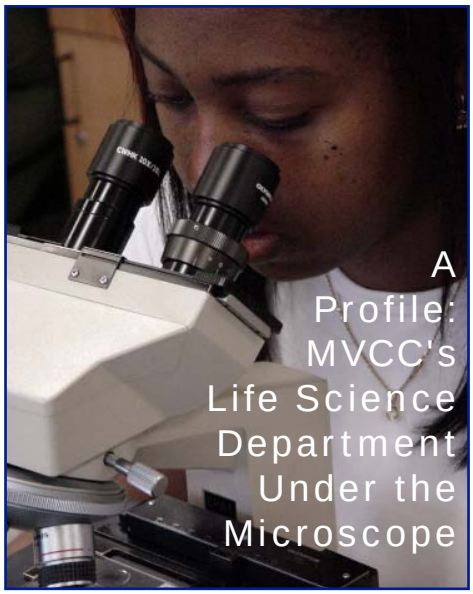
MVCC Faculty/Staff Newsletter May 2nd 2005



A Profile: MVCC's Life Science Department Under the Microscope

The majority of MVCC students intending to transfer to a baccalaureate institution choose biology to fulfill their laboratory science requirement. Dr. Robert Jubenville, Head of the Life Science Department, explains: "Students feel comfortable with biology because they have had some exposure to the biological sciences in high school. In spite of this, incoming students find the course requirements of a college level survey course in biology quite challenging, especially the amount of out-of-class study expected of them.

Enrollment

The Life Science Department serves between 900-1100 MVCC students every semester in biology and geology classes. The vast majority of these students are matriculated in programs administered by other instructional departments. "We have to acknowledge what those students need," says Dr. Jubenville. "For instance, we collaborate with the Health Sciences Department to make sure our biology instruction prepares students with the knowledge they'll need in nursing courses and licensing exams."

High School Program in Cyber Security

Approximately 30 high school students from central New York spent their spring break taking part in a residential High School Program in Cyber Security April 17-22 at the Griffiss Information Assurance Institute at Rome. The program was conducted by MVCC in collaboration with the Griffiss Institute and the Cyber Operations Branch, U.S. Air Force Research Laboratory at Rome. The program was funded by an appropriation secured by Congressman Sherwood Boehlert.

The students addressed such topics as security policy, legal issues, cryptography, computer security, steganography, digital forensics, network security, and wireless security. Activities included classroom instruction and hands-on laboratory experience.

Photos Clockwise from top:

Proctor High School students Tram Pham and Georgia Pham work on a project during the MVCC Cyber Security program at the Griffiss Institute for Information Assurance April 18th - 22nd.

Congressman Boehlert was the guest speaker at the ceremony.

Congressman Sherwood Boehlert and Dr. Schafer congratulate Brian Salzer of Sherrill, during the Commencement Ceremony held at the end of the week-long program.

Programs/Options

About 150 students are matriculated in programs administered by the Life Science Department. These include Physical Education, Sports Medicine, Science, Science-Health Related, Science-Geology, Biology, Bio/Pre-Dentistry, Bio/Pre-Medicine, Bio/Pre-Pharmacy, Bio/Pre-Veterinary, Forestry, Forestry-PreESF*/Environmental Studies, Forestry-PreESF/Environmental & Forest Biology, Forestry-PreESF/Forest Technology, Forestry-PreESF/Resource Management, Forestry-PreESF/Paper Science Engineering, Forestry-PreESF/Landscape Architecture, Forestry-PreESF/Forest Engineering, Forestry-PreESF/Chemistry, and Nutrition & Dietetics. (*ESF= SUNY College of Environmental Science & Forestry at Syracuse University)

Enrollment in the Pre-ESF options has declined in recent years, as the College of Environmental Science & Forestry changed from an upper division institution accepting juniors as transfer students to a four-year college accepting freshmen.

Enrollment in Science has shifted to newer pre-professional options such as pre-dental, pre-medical and pre-pharmacy over recent years.

Enrollment in Physical Education has increased over the past few years, attracting many student athletes who are interested in teaching at the secondary level.

Many students in the department are preparing for professional careers in fields (pharmacy, medicine, veterinarian, dental) or in allied health areas.

Impact of Technology

Technology has impacted biology instruction at MVCC in a big way. Labs make extensive use of computers. For example, Professor Sam Drogo has created a CD which is included as part of a laboratory text for students in Anatomy & Physiology. Using new technology can be hard work for faculty members, requiring much more preparation time than some more traditional approaches. For students, it can mean taking in far more information. Where one textbook of a few hundred pages did the job 15 years ago, today that textbook has grown to 1,000 pages, and may include a student CD, Web links, and other materials.

A Unique Lab Facility

Most College employees know that the Life Science Department oversees a human cadaver laboratory in the Utica Campus Academic Building. It provides students in selected courses with a unique experience,

Highlights of April 18th Trustees Meeting

During its regular meeting on April 18th, the MVCC Board of Trustees took the following actions:

~ Approved a new scholarship program called MV College Connection. The program will give targeted high school students in Oneida and Madison Counties an opportunity to take selected MVCC courses as part-time students. A specific number of credit hours will be allocated to participating school districts for fall 2005 juniors and seniors. Each district will select students for participation and determine the number of credit hours each student will be awarded based on the district allocation. The program will be piloted for a year and evaluated for continuation based on participation and available funding. Students will be required to fulfill MVCC placement testing requirements as part of the registration and orientation process.

~ Ratified the appointment of Daniel Porcelli as Bursar. Porcelli has been employed at MVCC since 1977, serving as a financial aid accountant from 1977 to 1989 and again from 1990 to present. In 1989 and 1990, he was acting director of financial aid. He holds an A.A.S. degree in Accounting from MVCC.

~ Ratified the appointment of Joyce Palmer as Coordinator of Expendable and Fixed Asset Procurement. She has previously held a series of positions in industry, including director of proposals at Harvard Custom Manufacturing, contract administrator at NetTest, Inc., and as a consultant for Ericsson GE Mobile Communications and GE Electronics Division. She holds a B.S. degree in Business/Public Management from the SUNY Institute of Technology.

~ Approved the appointment of Mary Jane Parry as Financial Aid Accountant. She has been employed at MVCC since 1993, serving as an account clerk, senior account clerk and principal account clerk in the Business Office. She holds an

continued on page 3

Trustees Highlights, cont.

Associate's degree from MVCC in Business Management.
~ Amended the College Staffing Plan to delete a Counselor position in Admissions, and created a position of Coordinator of Programs for International Students.
~ Amended the College Staffing Plan to delete an Instructor position in the Life Science Department, and created the position of Director of Distance Learning, to oversee online instruction.
~ Approved the charge and composition of a College Senate Promotions Review Committee for Administrators.
~ Authorized awarding of degrees and certificates to members of the Class of 2005 recommended by the President and the Faculty.
~ Approved an Academic Calendar for 2006-2007. The calendar appears elsewhere in this issue of Communitas.
~ Approved submission of a Proposed Program Announcement for an Associate in Applied Science degree in Educational Sign Language Interpretation to SUNY. The program, if approved, will include advanced American Sign Language training, interpreting and deaf culture courses, and a core curriculum of liberal arts courses. The program is being developed by the Psychology, Human Services and Education Department in conjunction with the Resource Center for Independent Living, under a grant from the National Technical Institute for the Deaf at the Rochester Institute of Technology. A primary objective of the program would be to train interpreters to work in public schools.
~ Approved submission of a Proposed Program Announcement for an Associate in Applied Science degree in Fire Protection Technology to the State University of New York. The program is being developed by the faculty in the Social Sciences Department at the request of the Utica Fire Academy. Enrollees would supplement their fire protection education from the Academy with general education and program-related courses.
~ Approved minutes of its January 10th meeting.
~ Approved warrants and expenditures for College operations during January, February and March, 2005.
~ Approved Amendment #3 to the 2004-2005 Operating Budget, to reflect two grants. One is the Fiscal Year 2005 SUNY Library Collection Program Grant, $7,910. The other is a grant from the New York State Office of Alcohol & Substance Abuse Services for a program entitled Challenge College Alcohol Abuse, $72,800. (Year 1 of 3)
~ Ratified the appointments of the following individuals as members of the adjunct faculty for the Spring 2005 semester as well as future semesters as needed:
- Wilfried Brickner, to teach Introduction to Personal Computers for the Business & Information Technology Department. A technology teacher in the Utica City School District, he holds B.A. and M.A. degrees in Industrial Arts Education from California State University.
- Alexander Bulson, to teach Report Writing for the Humanities Department. A part-time member of the Communications faculty at the SUNY Institute of Technology, he holds two degrees from SUNY Brockport; a Bachelor's degree in Communication Applications, and a Master's degree in Communication Studies.
- Clayton Callahan, to teach Elementary French 2 for the Humanities Department. A French and Art History Tutor in the MVCC Learning Center, he holds a B.A. degree in Art History from McGill University.
- Stephen Clark, to teach Oral and Written Communication for the Humanities Department. A reporter for the Utica Observer-Dispatch, he holds a B.A. degree in Communications from Arcadia University, and an M.A.

Life Science Dept., cont.

one that can be extremely helpful if they are headed into health-related careers. The laboratory is unique among both two and four year colleges throughout the region. This laboratory provides an exposure to the structure of the human body available to very few undergraduate students.

What's New in Biology?

New knowledge in the field of biology finds its way into MVCC courses, including discussion of breakthroughs in molecular biology, and study of the human genome. However, for most students the emphasis continues to be on good basic biology instruction that prepares them for more advanced classes when they transfer. "It is also important to remember," says Dr. Jubenville, "that biology is a 'synthesis' science, incorporating information from mathematics, chemistry and physics. This is where much of the challenge comes for students."

Members of the Department

Members of the Life Science Department, with their areas of responsibility, 2004-2005 collegial activities and dates of hire:
- Professor **Thomas Capraro** teaches Human Life Science, Basic Pathophysiology, and Intro to Human Anatomy & Physiology. He is a member of the College Senate, the Institutional Effectiveness Committee, the Academic Policies Committee, has served on a Department Search Committee, and is a CIT presenter. He joined MVCC in 1975.
- **Deborah Cornish**, Laboratory Technician. She joined MVCC in 1986.
- Professor **Salvatore Drogo** teaches Human Anatomy & Physiology 1 & 2. He is active in the

continued on page 4

Life Science Dept., continued

Nicholas Gioppo

Professional Association, serving on the Executive Board and Negotiating Team, and is a Benefit Fund Trustee. He joined MVCC in 1973.

- Instructor **Stephen Getchell** teaches Environmental Science and General Biology 1. He is a member of the College's Campus Beautification Committee, and is active with the Professional Association's Community Outreach and Political Action initiatives. He joined MVCC in 2002.
- Instructor **Nicholas Gioppo** teaches Physical Geology and Historical Geology. He serves on the Honor Code Committee. He joined MVCC in 2002.
- Professor Robert Jubenville, Department Head, teaches General Biology 1 and Nutrition & Dietetics 1. He serves on the Academic Program Review, General Education, Strategic Planning, And Academic Policies Committee, has served on a Departmental Search Committee, and is chairman of the Academic Affairs Committee for the SUNY Faculty Council of Community Colleges. He joined MVCC in 1974.
- Assistant Professor **Donald Kelly** teaches General Biology 1, Human Anatomy & Physiology 1 & 2, and College Seminar. He is secretary for the Strategic Planning Committee, and also serves on the General Education, Services to Students with Disabilities, College Seminar and Animal Use Committees. He joined MVCC in 2000.
- Assistant Professor **Jennifer Krohn** serves as the College's Athletic Trainer for intercollegiate sports, and teaches in the Sports Medicine program, including Introduction to Sports Medicine, and Sports Medicine Practicum 1 & 2. She is administering a second annual regional sports medicine clinic at MVCC in May. She joined MVCC in 2001.
- Professor **Angelo Lattuca** teaches Environmental Science and Human Anatomy & Physiology 1. He is president-elect of the Empire State Association of Two-Year College Biologists, and was heavily involved, with other members of the Department, in the Association's annual conference, hosted by MVCC on April 23rd and 24th. He is a member of the Calendar Committee, Academic Appeals Committee, and has served on a Department Search Committee. He joined MVCC in 1977.
- Assistant Professor **Maureen McCleary** teaches Microbiology and Nutrition & Dietetics 2. She chairs the College-Wide Curriculum Committee, and serves on the Disciplinary Appeals and Awards Committees. She joined MVCC in 1994.
- Senior Typist **Ellen Nichols** serves as Department Secretary. She joined MVCC in 1983.
- Professor **William Perrotti** teaches Human Anatomy & Physiology 1 & 2. He is Acting Chair of the College Senate, and serves on the Strategic Planning Committee and the Professional Association Executive Board. He joined MVCC in 1974.
- Laboratory Technician **Anne Stepanick** joined MVCC in 1982.
- Professor **Richard Thomas** teaches General Biology 1 & 2. He is a member of the Promotions Committee and has served on a Departmental Search Committee. He joined MVCC in 1978.
- Professor **Jean Wagner** teaches Human Life Science 1 and Nutrition & Dietetics 1. She is a member of the Faculty Promotions Committee. She joined MVCC in 1988.

Trustees Highlights, cont.

degree in Journalism from Syracuse University.

- Loren M. Dachary, to teach Prevention & Safety for the Classroom Teacher Dachary holds a B.A. degree in Elementary Education from SUNY Oswego, and an M.S. degree in Special Education from SUNY New Paltz.
- Justin DeLong, to teach ED106 Introduction to College for the Humanities Department. A teacher of U.S. history, global studies and economics at Proctor High School, he holds a B.A. degree in Sociology from SUNY Geneseo, and an M.S. degree in Social Studies Education from SUNY Potsdam.
- Charles J. Ferguson, to teach Survey of Economics for the Business & Information Technology Department. A part-time teacher of economics at Whitesboro and West Canada Valley High Schools, he holds a B.A. degree in Interdisciplinary Social Science from SUNY Potsdam, and an M.B.A. from Syracuse University.
- Crystal Filer, to teach Property Damage Insurance for the Business & Information Technology Department. She has 22 years of experience in the property and casualty insurance field, and is certified by New York State as a pre-licensing and continuing education insurance instructor. She is employed by Met Life Insurance as a corporate initiatives program manager.
- Kristin Fitzgerald, to teach Therapeutic Recreation for the Psychology, Human Services & Education Department. She is an MVCC graduate with an Associate degree in General Studies. She also holds a B.S. degree in Therapeutic Recreation from Utica College, and an M.A. degree in Education from the University of Phoenix. She was previously coordinator/supervisor of therapeutic recreation at the St. Luke's Home.
- James Giruzzi, to teach Computing Fundamentals at Proctor High School for the Business &

continued on page 5

Trustees Highlights, cont.

Information Technology Department. A business teacher at Proctor, he holds a B.S. degree in Business from Ithaca College, and a Master's degree from SUNY Oswego in Education.

- Andrew Harris, Jr., to teach Counseling Techniques for the Psychology, Human Services & Education Department. A consultant in professional research development at Syracuse University, where he also teaches counseling and human services courses. He earned a B.S. Ed. in Community Health Education, an M.A. Ed. From Virginia State University in College Student Development, and an M.S. Ed. Degree in Community Agency Counseling from Old Dominion University.
- Sara Onisk, to teach Introduction to College for the Humanities Department. She is an English teacher at Proctor High School, and holds a B.A. degree in Education from SUNY Oneonta.
- Robert T. Orilio, to teach Personal Finance for the Business & Information Technology Department. He holds a doctoral degree in Business Administration from Western Colorado University, as well as a B.S. degree in Management Science from SUNY Geneseo, and an M.B.A. in Finance from Rochester Institute of Technology. He has been a faculty member at the SUNY Institute of Technology since 1977.
- Cynthia Reidi, to teach Chemical Dependency, and Adulthood & Aging for the Psychology, Human Services & Education Department. She earned a B.A. degree in Human Development and an M.A. degree in Social Sciences, both at Binghamton University (SUNY).
- Kevin M. Seymour, to teach Introduction to Personal Computers for the Business & Information Technology Department. A full-time teacher at Proctor High School, he holds a B.A. degree in Art from SUNY Oswego.
- Christina Schilling, to teach Introduction to Sociology for the Social Sciences Department, as a BOCES interactive video course through the CCED. She holds an A.A.S. in Biology from Monroe Community College, and a B.S. degree in Liberal Arts/Biology from Rochester Institute of Technology. She is currently a part-time teacher at Dolgeville Central School.
- William Schlegel, to teach American National Government for the Social Sciences Department. He is a former teacher at Oswego High School and Corcoran High School in Syracuse, as well as at SUNY Oswego. He earned two degrees at SUNY Oswego, a B.A. in Public Justice, and an M.A. in History.
- Joseph J. Stanco, to teach Materials Science for the Engineering Technologies & The Trades Department. He is president of Matrix Composites, Inc. He graduated from Ohio Northern University with a B.S. degree in Mechanical Engineering, and from Northwestern University with an M.S. degree in Mechanical Engineering.
- Gregory W. Sydirow, to teach English 1 for the Humanities Department. A Liberal Arts & Sciences graduate of MVCC, he holds a B.S. degree in English from SUNY Oneonta, and an M.A. degree in English from Binghamton University (SUNY).

~ Accepted the resignation of Wendy Palczynski, admissions counselor.
~ Accepted a notice of retirement from Thomas Salva, Rome Campus.

Summer Lunch Breaks For Clerical Staff

According to an agreement the College reached with UPSEU in November 1999, lunch breaks for clerical employees with one-hour lunch breaks will change for the summer. From Memorial Day through the day preceding the day on which faculty return, clerical staff who take one-hour lunch breaks may take one-half hour lunch breaks. They will return to one-hour lunches on Thursday August 18.

" The agreement deals with lunch breaks only. Offices will remain open as usual and supervisors will schedule staff as needed to provide coverage.
" The change in lunch breaks applies only to employees represented by UPSEU. This provision does not cover professional staff or administrators.
" Those with half-hour lunch breaks may find the time of the lunch break has to change to provide coverage in the office.
" The only people who may retain half-hour lunch breaks after August 18 are those who had half-hour lunches on October 21, 1999.
" Staff who wish to remain on a one-hour lunch break may do so if they and their supervisor agree.

Life Science Facts-
Do you know?

~ Do you know what muscles you use when you reach up to get something from the top shelf of your closet? Students in Human Anatomy and Physiology at MVCC do.
~ Do you know how and why your heart, lungs and blood vessels change when you run a mile? Students in Human Anatomy and Physiology at MVCC do.
~ Do you know how much blood your heart pumps in one minute? Students in Human Anatomy and Physiology at MVCC do.
~ Do you know what it means to have 20/20 vision? Students in Human Anatomy and Physiology at MVCC do.
~ Do you know how and WHY some people can't eat ice cream or other dairy products? Students in Human Nutrition at MVCC do.
~ Do you know that you can not live without certain fats in your diet. Students in Human Nutrition at MVCC do.
~ Do you know why fat soluble vitamins can be toxic to you. Students in Human Nutrition at MVCC do.

Do you know
~ If there are chemicals in our plastic containers that could harm us?
~ How soils are formed and why is soil so important for life on earth?
~ What Is the potential for developing wind and solar power in the United States?
~ Who is Rachel Carson and how did she help save the bald eagle?
~ What are "alien" species?
~ What is the "Dead Zone" in the Gulf of Mexico and where did it come from? Students in Environmental Science at MVCC do.

2006-2007 Academic Calendar

The following 2006-2007 Academic Calendar was approved by the College Senate at its April 5th meeting, as proposed by the College-wide Calendar Committee. It was approved by the College's Board of Trustees at its April 18th meeting.

Fall 2006

Faculty Return	Thursday, August 17
Instruction Begins	Thursday, Aug 24
Labor Day (College closed)	Monday, Sept 4
Columbus Day (no classes)	Monday, Oct 9
Midterms	Wednesday, Oct 18
(Last day to withdraw (16 week courses)	Friday, Nov 10
Thanksgiving Recess	Wed-Sun, Nov. 22-26
(22nd: No classes; 23rd-24th: College closed)	
Last Day of Instruction	Wednesday, Dec 13
Final Exams	Thurs-Tues, Dec 14-19
Commencement	Wednesday, Dec 20
Grades Due	Thursday, Dec 21

EVENING EXAMS:

Monday evening	Monday, Dec 18
Tuesday evening	Tuesday, Dec 19
Wednesday evening	Friday, Dec 15
Thursday evening	Thursday, Dec 14
Friday evening	Friday, Dec 15

Spring 2007

Faculty Return	Tuesday, Jan 9
Instruction Begins	Thursday, Jan 16
Midterm	Thursday, March 8
Spring Recess	Mon-Sun, March 12-18
Last Day to Withdraw (16 week courses)	Monday, April 9
Last Day of Instruction	Monday, May 7
Study Day/Snow Day	Tuesday, may 8
Final Exams	Wed-Mon, May 9-14
Grades Due	Wednesday, May 16
Commencement	Friday, May 18

EVENING EXAMS:

Monday evening	Monday, May 14
Tuesday evening	Friday, May 11
Wednesday evening	Wednesday, May 9
Thursday evening	Thursday, May 10
Friday evening	Friday, May 11

SUMMER SESSION 2007

First Five-Week Session

Instruction Begins	Monday, May 21
Memorial Day Holiday	Monday, May 28
Instruction Ends	Monday, June 25
Final Exams	Tuesday, June 26
Grades Due	Thursday, June 28

Second Five-Week Session

Instruction Begins	Monday, July 9
Instruction Ends	Friday, August 10
Final Exams	Monday, August 13
Grades Due	Wednesday, August 15

First Eight-Week Session

Instruction Begins	Monday, May 21
Memorial Day	Monday, May 28
Independence Day Recess	Wednesday, July 4
Instruction Ends	Friday, July 13
Final Exams	Monday, July 16
Grades Due	Wednesday, July 18

MVCC Concert Band Performs May 9th

MVCC and Utica College combine musical forces in their 2nd Annual Spring Concert on Monday May 9 in MVCC's IT Theater. The evening kicks off at 7:00 PM with a special presentation by the MVCC Vocal Ensemble. Their program includes “Contate Domino” by Natalie Sleeth; “Bring Him Home” from “Les Miserables” by Boublil & Schonberg; “The Water Is Wide” (traditional English folk song); “Danny Boy” (Londonderry Aire)and "Two Curmudgeonly Canons" by P.D.Q. Bach. Piano accompaniment is provided by Christopher Widomski.

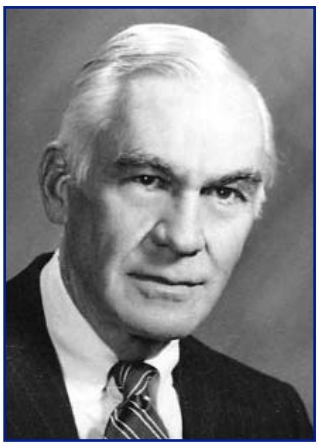
The MVCC Concert Band, under the direction of Barb Seaton, is on stage next with Haydn Wood's "Mannin Veen (Dear Isle of Man)" along with selections from Jerry Herman's musical "Milk and Honey;" ballet music from the opera "Faust" by Charles Gounod and Leon Jessel's "March of the Wooden Soldiers."

Mike DiMeo takes over the baton with the Utica College Band and their portion of the program includes standard wind ensemble literature. The UC Band's selections are a medley from the movie "The Lord of the Rings" by Howard Shore; Dvorak's "Slavonic Dances #8;" "Irish Tune from County Derry" and "Shepherd's Hey!" both by Percy Aldridge Grainger; "Lux Aeterna" (Light Eternal) by Elliot DelBorgo and Sousa's "Pathfinder of Panama March."

To end the evening, both the bands will combine for four numbers: "Dies Irae" from Verdi's Requiem (dedicated to long-time, retiring drummer Mary Agnes Brown, who plays in both bands) and "Transit of Venus" (a recently "re-found" Sousa march) conducted by Seaton; DiMeo will direct Tichelli's arrangement of "Amazing Grace" and "Allied Honor" by Karl King.

There is no admission charge for the concert.

Trustee Emeritus Eugene Madden, Jr., Passes Away at Age 84



MVCC Trustee Emeritus Eugene Madden, Jr., of New Hartford passed away on April 26th at the age of 84.

Mr. Madden's family has established a fund in his name with the MVCC Foundation, and encourages contributions in memory of Trustee Madden. Decisions about how the fund will be allocated will be made in the near future.

Mr. Madden was appointed to MVCC's Board of Trustees in 1976 by former New York Governor Mario Cuomo, and was reappointed in 1984, serving until 1995. He was Chairman of the Board from 1981 to 1983.

In business, he was president of King Cole or Rome, NY, and president of Madden-VanCott in Syracuse. He was also co-owner of Madden Air Service from 1958 to 1970, and was an active pilot for most of his life. He served several terms as president of the New Hartford Board of Education. In 1978, he was appointed United States Marshall for the 29-county Northern District of New York by President Jimmy Carter, and served until 1982.

He was Democratic candidate for Oneida County Executive in 1967, and also ran for State Assembly.

A graduate of the U.S. Naval Academy in December 1941, as a member of the Class of 1942, he served as a fighter pilot during World War II, in both the Atlantic and Pacific.

Upcoming Events

Wednesday, 5/4
~Hospitality Programs Theme Dinner, “Welcome in Spring with a Gift of Southern Hospitality,” $18pp, 6:00pm, Hospitality Dining Room, Rome Campus. For reservations, call X7702, Monday-Friday, 9:00am-3:00pm.

Thursday, 5/5
~ Matsuri Arts Festival, 5:00pm-10:00pm, IT Theater and Lobby.

Friday, 5/6
~ Matsuri Arts Festival, 7:00pm-9:00pm, IT Theater and Lobby.
~ Special Olympics Dance, 6:00pm-9:00pm, PC Atrium.

Saturday, 5/7
~ Matsuri Arts Festival, TBA
~ Onsite Wastewater Disposal System Design class, 8:30am-4:30pm.

Sunday, 5/8
~ Baseball vs. Erie CC, 1:00pm, Murnane Field.

Monday, 5/9
~ MVCC/Utica College Concert Bands Performance, 7:00pm, IT Theater.

Tuesday, 5/10
~ Placement Testing, 6:00pm-9:00pm, PCA10, Rome Campus

Wednesday, 5/11
~Hospitality Programs Theme Dinner, “Beginnings and Endings: Hors d’Oeuvres through Desserts,” $18pp, 6:00pm, Hospitality Dining Room, Rome Campus. For reservations, call X7702, Monday-Friday, 9:00am-3:00pm.
~ Art Farm, 7:00pm, IT Theater.

Saturday, 5/14
~Mychal Harris Memorial Scholarship Dinner and Fashion Show, 4:00pm, IT Theater.
