

MVCC 2003-2004 Graduate Follow-up Survey

This report summarizes the results of Mohawk Valley Community College's Graduate Survey.

There were 822 graduates (Aug '03, Dec '03 and May '04 grads), who received a total of 861 degrees.

This report was prepared in the Winter of 2005 by the Office of Institutional Assessment: Mark E. Radlowski, Director of Institutional Assessment

Notes:

- 1) The survey was sent out by mail in June and again in July 2005. Telephone calls were made during August and September to try to encourage more graduates to respond. The survey did not reach 19 of the graduates since their addresses were incomplete or incorrect.
- 2) The term "Respondent" does not necessarily indicate someone who actually filled out a questionnaire. The information actually comes from three sources:
 - a) There were 305 survey returns (37.1% return rate).
 - b) SUNY-generated files to track transfer students. Data in question 11 includes 115 students who were tracked in this fashion.
 - c) Data from consultation with faculty in the MVCC Health Department is reported for an additional 54 students and included in questions 4, 5 and 11.
- 3) The list of employers in Part 2 only includes those of students in "related" occupations, although the salary is the median of all those who volunteered their income.

An asterisk (*) in the salary information indicates that fewer than three graduates reported their annual salary.
- 4) Percentages are based solely on non-blank values.
