

- Notes:**
- Electric, the black traveler, and the movie screen do not move.
  - Pipes on either side of the electric are unusable due to their proximity to the electric.
  - Borders, legs, the black backdrop, and blue sky drop can be moved upon request.
  - Side tabs are in place for masking the wings more effectively.
  - A blue traveler is used as the main curtain. It is dead hung and can not move.
  - Rigging operation can not take place from the deck. An elevated lock rail is in use.
  - 44'2" **Maximum** fly space
