## Create a face card using a famous person from history.

Choose a well known person from history - a world leader, military leader, scientist, explorer, etc. Research this person to learn what they are about. Take the opportunity to discover someone new.

Write a short one page **biography** for this person explaining what they were responsible for or why they are important in history.

## **Objectives**

You will learn how to

create an interesting composition with a sensitivity to color.

create a likeness of a person in vector art.

create an original unique pattern swatch for a fill using Adobe Illustrator's Swatches palette.

create an original unique patterned border using Adobe Illustrator's Pattern Brush.

employ reference material in creating a cohesive design of multiple elements.

The portrait must be a double reversed image as face cards commonly are. It must include at least one hand and a prop of some sort, however the prop does not need to be in the hand. You will use all the techniques you have learned thus far to produce a **realistic rendering** and likeness of the person you choose. Create the back of the card using a **pattern fill** that you create from scratch. Also, you must create an original **Pattern Brush** for a border treatment on your card.

Gather **multiple photographic** references for the person and the prop. Images must be fairly **large** and of **high quality**. Also gather playing card references. Proceed to the next step brainstorm, thumbnail, and sketch until you arrive at your final design solution.

The finished card will be 2 ½ X 3 ½" with 1/8" round corners. In addition to the small card, create a duplicate card at 200%. You will mount both versions on mat board and attach a cover sheet. Create and submit a **PDF process notebook** that documents your entire process. Submit the Illustrator files.
