Present via Go To Meeting: Jill Heintz, Maria Ramos, Stephanie Verostek

DREAM conference recap

- Distributed overview and group shared comments and take a ways

Data update

- Mark reported on his visit to the last Deans' meeting where they discussed possibilities for gateway courses. They determined the following course for consideration:
 - Arts and Humanities: History 101
 - Business/Social Sciences: Criminal Justice 101
 - Life and Health Sciences: Psychology 101
- Mark indicated the Student Opinion Survey (SOS) and the Community College Survey of Student Engagement (CCSSE) have questions that might provide more information. However, he still believes focus groups will be necessary and provide more accurate information.

Next Steps (for 3/10 meeting)

- Mark will identify potential students for focus groups.
- Jill will reach out to the list of faculty and staff who expressed interest (and who are trained) in facilitating focus groups.
- A member of the Data Team will talk with Maryrose and then reach out to identified faculty who can share perspective on classroom experiences that impact success (or not) in the identified gateway courses.
