Center/Department		Program/Activity/Service				
Mission Reference	Institutional Competency Reference (Institutional Level Learning Goals)	Program/Activity/ Service Goal	Intended Outcome	Assessment Methods & Criteria for Success	Assessment Results	Actions Recommended/ Taken
Mohawk Valley Community College promotes student success and community involvement through a commitment to excellence and a spirit of service.	Students will:  1. Effectively communicate 2. Organize information, evaluate alternatives, distinguish fact from opinion and reach logical conclusions, 3. Demonstrate the ability to interact effectively within a diverse society, 4. Demonstrate logical thinking and solve quantitative problems by using various computation and other mathematical techniques, 5. Demonstrate the ability to identify and locate information from a variety of sources and understand the legal and ethical uses of information.	A program goal should link to the College Mission Statement and/or one of the College-wide Competencies. (For non-academic departments goals may not link to the competencies.)  You can use the following link to check examples from other templates in the Instruction and Student Services Units. \text{\text{\text{Nmvhawk\departments\VEC\}}}	For each program goal there should be measurable outcomes that support the goal.	This column should include the assessment method as well as the expected/desired success rate.	The last two columns will be completed on a three year cycle.	
	Students will demonstrate the ability to identify and locate information from a variety of sources and understand the legal and ethical uses of information.	This goal is common to all Academic Programs  To prepare students to demonstrate information literacy.	a. Students will use traditional and contemporary information technology.  b. Students will identify, access, and appropriately use authoritative sources of information.	a At least 80% of those graduates who took the online MVCC Information Management assessment will have scored at least an 80% on the assessment.  b At least 70% of those graduates who took the online MVCC Information Management assessment will have scored at least an 80% on the assessment.	a. As per data from the Office of Institutional Research and Analysis, for the period from to,out of (%) graduates received at least an 80% on the MVCC Information Management Competencies Assessment.  b. As per data from the Office of Institutional Research and Analysis, for the period from to,out of (%) graduates received at least an 80% on the MVCC Information Management assessment.
