

Learner

You have a great desire to learn and want to continuously improve. In particular, the process of learning, rather than the outcome, excites you. Your talent is valuable because it propels you to thrive in a dynamic world where learning is a necessity. You can learn a lot in a short period of time.

General Academic Life

Kee a journal in which you reflect on what you learned from your classes and other experiences.

Read outside material that is related to your courses. This approach will not only impress the professor; it also will help you develop a better understanding of the subject.

Exceed expectations. Do more than the syllabus requires of you.

Look at every situation as a possible learning experience. This approach will help you become aware of what you do well and where you need help.

Always ask, "What did I learn from this?"

Study Techniques

Study in an environment that allows you to get into a "study mood." This approach allow you to get the most out of your studies.

Join study groups that challenge you.

Figure out questions that will be asked, and practice answering them in preparation for discussions and exams.

Learner

Relationships

Have lots of conversations on subjects you are passionate about with people who are interested in learning.

Identify classmates who share your thirst for knowledge, and get to know them.

Build relationships with those from whom you want to learn.

Class Selection

Choose challenging courses that will broaden your knowledge base in important areas.

Enroll in college honors and departmental honors classes.

Extracurricular Activities

Choose on-campus jobs that will provide learning experiences, such as working as a professor's assistant.

Don't restrict your learning experiences to the classroom. Engage in activities in which you can expand your knowledge about subject that interest you most.

Find opportunities to work with faculty and teaching assistants to make your college experience more meaningful. It will deepen your understanding of intellectual topics, concepts, and principles.
