MVCC DINING PROGRAM:

The COVID-19 pandemic has changed how we all go about our business and the MVCC Campus Dining Team has developed a site specific plan that will be in place for the academic year. Our goal is to continue to provide you the highest level of food quality and service while keeping everyone safe. Please take a moment to read through the enhancements to your program.

MVCC DINING EMPLOYEES PRECAUTIONS

- Employees will receive guidelines for stay at home and returning to work policies consistent with CDC guidelines.
- Touchless temperatures will be taken at the start of each shift and a log will be posted and monitored by our on-site manager.
- Following CDC guidelines, employees with a fever higher than 100.1 will be sent home.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

All employees will be issued and required to wear PPE, including:

- Face Masks
- Disposable Gloves

SANITATION

Enhanced sanitation protocols and recommended cleaning supplies are outlined in greater detail in our Pandemic Plan and include:

- Hand sanitizer available to employees and customers
- Work with you to ensure proper cleaning and sanitation of café and common areas prior and after each service.

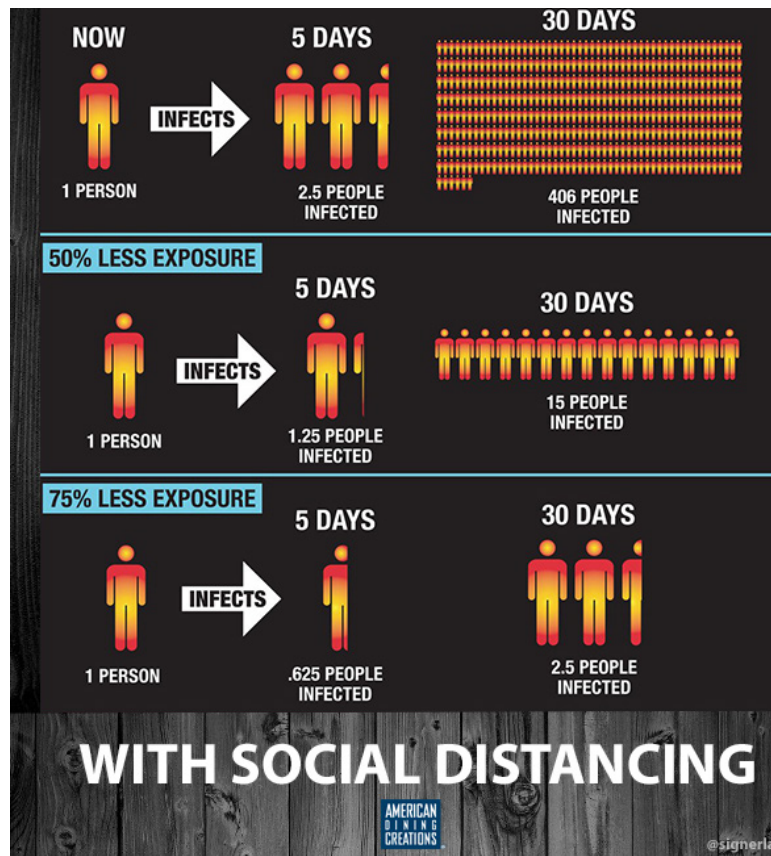

“Currently there is no evidence to support transmission of COVID-19 associated with food. Before preparing or eating food, it is important to always wash your hands with soap and water for 20 seconds for general food safety.”
Food Safety and the Coronavirus Disease (COVID-19) - FDA

SOCIAL DISTANCING RECOMMENDATIONS

Following CDC recommendations we will implement an effective and comprehensive social distancing strategy. Our plan will include:

- Posted signs in the dining area and around seating areas to encourage social distancing
- Place floor signs in the dining areas to mark appropriate social distancing
- We will work with you to redesign seating areas to ensure at least six feet of separation between tables
- Assist school with adjusting tables to maximum approved levels according to NYS/CDC restaurant guidelines or school policy

PRACTICE SOCIAL DISTANCING

Why practice social distancing?

The CDC recommends to stay 6 feet from other people. COVID-19 spreads mainly among people who are in close contact (within about 6 feet) for a prolonged period. Spread happens when an infected person coughs, sneezes, or talks, and droplets from their mouth or nose are launched into the air and land in the mouths or noses of people nearby. The droplets can also be inhaled into the lungs.
