

**Enrollment Management Council  
March 13, 2015**

In Attendance: Bill McDonald, Dan Ianno, Heather Kesterson, Jake Mihevc, Rich Haubert, Tia Lock, Jen DeWeerth, Shahida Dar

Agenda for March 13

Outcome

- 1) **Nano**  
determine timeline & communication to SPC

Formulate Recommendation &

This was discussed. Shahida raised issue of NSF and other grants related to Nano (suggested by NSF staff at a conference)). This could help with course development, faculty time. There is a need to coordinate our efforts with SUNY Poly and transfer colleges in general. The STEM Center has been active on a number of fronts. How can EMC support rather than interfering or treading on their turf? Jen will send out a draft recommendation re: nano before the next meeting and contact the SPC Chair about how and when to share it.

- 2) **Non-Traditional learners follow up**

Determine next steps

There was discussion about this issue (based on email response from ALS/Janet Visalli)

- 3) **Data questions posed last month from Bill**

Continue Review & add new to list

Tabled.

- 4) **Wiki**

Decide whether needed & next steps

No need for Wiki at this time.

- 5) **Subgroups**

Decide whether needed & next steps

Our first step is to learn more about the start to finish experience of creating the Cyber Security program. Jake will explain in detail at the next meeting. Once everyone has some common background, then we can discuss whether it makes sense to have a subgroup explore process.
